

HAEFA Frontend requirements (Requirement list)							
<b>Project Status</b> <b>Project Name</b> <b>Last Updated</b> <b>Prepared by</b>		<b>Client's feedback list</b> <b>NIROG PLUS' (HAEFA)</b> <b>26/10/2023</b> <b>Project Manager</b>					
		<b>Delivery Deadline: 01/11/2023</b>					
No.	Title	Description	Task Type	comment from Devs	Client's feedback	Status	QA Status
1	Add new fields	<ul style="list-style-type: none"> <li>· Spouse Name (if any)</li> <li>· Religion (dropdown)</li> <li>· Family Members</li> <li>· Father Name</li> <li>· Mother Name</li> <li>· Education(dropdown)</li> <li>· Head of Family(dropdown)</li> </ul> Children (Age 0 to 1, Age 1 to 5, Age > 5)	New Task	API & patient registration done API list: Religion, Education, Head of Family	Hide these fields from frontend		<b>PASSED</b>
2	Patient Registration	Would you please make if both addresses are same then the present address will be auto fill up with clicking a checkbox button.		No Backend Dependency			<b>PASSED</b>
3	Patient's history in every station	Need all information (screenshot provided) and flagging system in patient history section. If any abnormality is showing in the patient test result the <b>red/yellow flag</b> will be shown depend on the test result value		API Development Done			<b>HOLD</b>
4	Prescription	Details of HAEFA USA and HAEFA Bangladesh needs to be updated in the prescription footer.		No Backend Dependency			<b>PASSED</b>
5	Prescription File Name	When we downloaded any prescription as a pdf then we can see it is downloading as Haefa.pdf. Would you please make it PRESCRIPTION_NUMBER.PDF		No Backend Dependency		done	<b>PASSED</b>
6	Camera Rotation	Camera rotation functionality is not available.		Done		done	<b>FAILED</b>
7	Error showing	Station 4A is showing an error when we are trying to insert few data. (Screenshot – 3)		changed status field, issue resolved		done	<b>PASSED</b>
8	Next button not working ( Station	After fill up all data into Station-1, the Save & Next button is not redirecting to next Station-2		No Backend Dependency		done	<b>PASSED</b>

9	Family member illness ( Station 4)	We can not define which family member is in ill for specific patient (See screenshot-1)		need clarification			
10	Ttile change ( Station 4A)	Patient Mental Health should be title not a question.(4th question)		No Backend Dependency		done	<b>PASSED</b>
11	Ttile change ( Station 4A)	Social History title is not relevant. (Title Should be: Do you take any of the followings?)		No Backend Dependency?		done	<b>PASSED</b>
12	Duplicate advice (Station 4C)	One duplicated advice is showing here (dropdown)		Issue resolved		done	<b>FAILED</b>
13	Ointment advice ( Station 4C)	Treatment Suggestion > Advice is not applicable for OINTMENTS.		Done? FE?		Done	<b>HOLD</b>
14	Blank page	Sometimes, app interface is showing blank		??IP change? Needs investigation			
15	Provisional Diagonostic (Station 4)	We can search with any <b>code/terms</b> . But we can not define sub category of disease and we can not see disease code beside the Terms.Please see the attached video for more clarification (Attachment -4)		No Backend Dependency			
16	User Session	System will be automatically logged out if that specific user is inactive for last 30 mins. (Not necessary right now.)		No Backend Dependency			
17	TB Module			API List:		API provided	

# Test Requirements Traceability Matrix (TRTM)

Project Name	NIROG-Plus Electronic Medical Record System Application					Create Date		Nirog Plus Version: 1.0.0		
Project ID						Version		Health and Education for All (H)		
Project Manager	Urmi Hira					Client Name		Rashed Zahan		
Project Type	Electronic Medical Record System Application					QA Engineer				
Sl. no.	Req. ID	Req. Desc.	Source of Requirement	Scenario	TC ID	Test Desc.	Test Result	Defect ID	Defect Status	
1	Frontend	BR 1.0		New Requirement	Spouse Name (if any)	TC_SpouseName_001	Placeholder of text field	HOLD		
2	Frontend					TC_SpouseName_002	Title of text field	HOLD		
3	Frontend					TC_SpouseName_003	Data insert into database	HOLD		
4	Frontend	BR 1.1		New Requirement	Religion (dropdown)	TC_Religion_001	Placeholder of text field	HOLD		
5	Frontend					TC_Religion_002	Title of text field	HOLD		
6	Frontend					TC_Religion_003	Dropdown functionality	HOLD		
7	Frontend	BR 1.2		New Requirement	Family Members	TC_Religion_004	Data insert into database	HOLD		
8	Frontend					TC_FamilyMem_001	Placeholder of text field	HOLD		
9	Frontend					TC_FamilyMem_002	Title of text field	HOLD		
10	Frontend	BR 1.3		New Requirement	Father's Name	TC_FamilyMem_003	Data insert into database	HOLD		
11	Frontend					TC_FamilyMem_004	Numeric data input in the text field	HOLD		
12	Frontend					TC_FatherName_001	Placeholder of text field	HOLD		
13	Frontend	BR 1.4		New Requirement	Mother's Name	TC_FatherName_002	Title of text field	HOLD		
14	Frontend					TC_FatherName_003	Data insert into database	HOLD		
15	Frontend					TC_MotherName_001	Placeholder of text field	HOLD		
16	Frontend	BR 1.5		New Requirement	Education(dropdown)	TC_MotherName_002	Title of text field	HOLD		
17	Frontend					TC_MotherName_003	Data insert into database	HOLD		
18	Frontend					TC_Education_001	Placeholder of text field	HOLD		
19	Frontend	BR 1.6		New Requirement	Head of Family (dropdown)	TC_Education_002	Title of text field	HOLD		
20	Frontend					TC_Education_003	Dropdown functionality	FAILED	For "Others" > Should open to	
21	Frontend					TC_Education_004	Data insert into database	HOLD		
22	Frontend	BR 1.7		New Requirement	Children (Age 0 to 1, Age 1 to 5, Age > 5)	TC_FamilyHead_001	Placeholder of text field	HOLD		
23	Frontend					TC_FamilyHead_002	Title of text field	HOLD		
24	Frontend					TC_FamilyHead_003	Dropdown functionality	HOLD		
25	Frontend	BR 2.0	Present address and permanent address auto fill-up in registration page	Change Request	Auto Fillup Button	TC_FamilyHead_004	Data insert into database	HOLD		
26	Frontend					TC_Children_001	Placeholder of text field	HOLD		
27	Frontend					TC_Children_002	Title of text field	HOLD		
28	Frontend	BR 2.0		Change Request	Auto Fillup Button	TC_Children_003	Functionality	HOLD		
29	Frontend					TC_Children_004	Data insert into database	HOLD		
30	Frontend					TC_AutoFillup_001	Operational text message	PASS		
31	Frontend	BR 2.0		Change Request	Auto Fillup Button	TC_AutoFillup_002	Button functionality	PASS		
32	Frontend					TC_AutoFillup_003	Fillup present address > Click auto fillup button > Check permanent	PASS		
33	Frontend					TC_AutoFillup_004	Click auto fillup button > Fillup present address > Check permanent	PASS		
34	Frontend	BR 3.0	Red / Yellow Flag in patient history section	Change Request	Red / Yellow Flag	TC_AutoFillup_005	Fillup present address > Click auto fillup button > Check permanent address > Edit/Update present address > Check permanent address	PASS		
35	Frontend					TC_Flag_001	History showing properly	PASS		
36	Frontend					TC_Flag_002	Red flag is showing perfectly	PASS		
37	Frontend	BR 4.0	Address update on prescription	Change Request	Prescription	TC_Flag_003	Yellow flag is showing perfectly	PASS		
38	Frontend					TC_Prescription_001	Check prescription footer	PASS		
39	Frontend					TC_Prescription_002	Check spelling of address	PASS		
40	Frontend	BR 5.0	Download prescription	Change Request	Download file name	TC_FileName_001	Check the file name when download	PASS		
41	Frontend					TC_FileName_002	Check the file format	PASS		
42	Frontend					TC_CameraRotation_001	Check camera rotation functionality	PASS		
43	Frontend	BR 7.0	Station 4A is showing error to insert data.	Change Request	Error Showing	TC_CameraRotation_001	Check camera rotation functionality	PASS		
44	Frontend	BR 8.0	The "Save & Next" button is not redirected to Station-2 page	Change Request	Save & Next button	TC_ErrorShowing_001	Check "Save & Next" button functionality	PASS		
45	Frontend	BR 9.0	Which family member is ill	Change Request	Family member illness	TC_SaveNext_001	Check "Save & Next" button redirect to station 2 page	PASS		
46	Frontend	BR 10.0	Patient Mental Health should be title not a question	Change Request	Title Change	TC_FamilyIllness_001	Check which family member is ill for specific patient	PASS		
47	Frontend	BR 11.0	Social History title is not relevant. (Title Should be: Do you take any of the followings?)	Change Request	Title Change	TC_TitleChange_001	Check the title of patient mental health	PASS		
48	Frontend	BR 12.0	One duplicated advice is showing under "Station 4C"	Change Request	Duplicate advice	TC_SocialTitleChange_001	Check the title of patient social history	PASS		
49	Frontend	BR 13.0	Advice is not applicable for Ointment.	New Requirement	Ointment advice	TC_DuplicateAdvice_001	Check dropdown value in advice section	PASS		
50	Frontend	BR 14.0	Sometimes, app interface is showing blank	Change Request	Blank Page	TC_Ointment_Advice_001	Check the functionality, how to use ointment	PASS		
51	Frontend	BR 15.0	Sub category and disease code not	Change Request	Provisional Diagnostic	TC_BlankPage_001	Check the app showing all information properly	Partially PASS		
52	Frontend					TC_ProvisionalDiagnosis_001	Check the diseases code	PASS		
53	Frontend					TC_UserSession_001	Check the sub category in this application	PASS		
54	Frontend	BR 17.0	User session 30 mins	Change Request	User Session	TC_TBModiul_001	Check the user session in this application	PASS		
55	Frontend	BR 17.1	TB module	New Requirements	TB Module	TC_TBModiul_002	Check the dropdown functionality	PASS		
56	Frontend	BR 17.2		New Requirements		TC_TBModiul_003	Check the radio button functionality	PASS		
57	Frontend	BR 17.3		New Requirements		TC_TBModiul_004	Check the spelling mistake	PASS		
58	Frontend	BR 17.4		New Requirements		TC_TBModiul_005	Check the "Save & Next" button	PASS		
59	Frontend	BR 17.5		New Requirements		TC_TBModiul_006	Check the "History" button	PASS		
60	Frontend	BR 17.6		New Requirements		TC_TBModiul_007	Check "Save & Next" button redirect to station 4B page	PASS		
61	Frontend	BR 17.7		New Requirements		TC_TBModiul_008	Check "TB Status" page title	PASS		
62						TC_TBModiul_009	Check "TB Status" page url	PASS		
64	Frontend		Patient age under one year	Change Request	Age Calculation	TC_TBModiul_009	Check the all checkbox	PASS		
64	Frontend	BR 18.0	Station-4C	Change Request	Treatment Suggestion	TC_AgeCalculation_001	Patient age calculation under 1 year old	FAILED		
	Frontend					TC_TreatmentSuggestion_001	Check the unit (dropdown) is only accept the integer number	FAILED		

HAEFA Backend requirements (Requirement list)						
Project Status		Client's feedback list		Delivery Deadline:		
Project Name		NIROG PLUS' (HAEFA)				
Last Updated		25/10/2023				
Prepared By		Project Manager				
No.	Title	Description	Task Type	comment from Devs	Client's feedback	Status
1	User Tab	1.1 Some field is not available in the user Tab which is available in previous version software.				
		1.2 Uploading of user's signature and Designation is not available in User registration.				
2	Patient Tab	1. Add Patient button is not working 2. We can not select/wrtie Head of Family when we are trying to update a patients data. (Patient > Edit > Head of Family field) Patient report is not properly implemented				
		When we are try to insert Health center information, Some fields are not available which is available in previous version of NIROG. When we need to refer a patient to a nearest Health center then those information is needed for analysis. (See screenshot-5)				
3	Health Center Tab					
4	Health Center Analysis Sec.	Please see the attachment here.(See screenshot-6)				
5	Referral Patient Section	This is needed if any HAEFA doctor refer a patient to other Health Center. Again we need to see how many referral patient in a specific duration in the report section. (See screenshot-7)				
		We can not add/edit some reference data from backend. Those are given below:				
6	Referral Data Section	1. Contraception Method, 2. Drug Form, 3. Drug Group, 4. Drug, 5. Head of Family 6. Lab investigation 7. Lab investigation group, 8. ill Family Member, 9. Provisional Diagnosis 10. Provisional Diaenosis Group 11. Disease				
7	System Config. Section	1. Auto Suggestion, 2. Auto Suggestion Group - NOT FOUND We can not add some reference data from backend. Those are given below: 1. Advice, 2. Duration, 3. Frequency 1. Advice, 2. Duration, 3. Frequency				
8	Data Sync	Would you please add a button to sync data from other database? Currently we have to click on a batch file to sync database.				
9	Database Backup	?? NEED some Discussion.				
10	Barcode	1. Sometime barcode is broken when we try to print it. Would you try to print just Health Center Name, District in header (remove Union and Upzilla)				
		2. Table action column button is not working in barcode generator menu.				
		3. Filtering to showing value 100, 50 is giving an error.				

	<p>1. Every datatable first column name heading is not getting any space.</p> <p>2. All dropdown menu is not fixed in every filter input area dropdown. It is moving when we scroll down/up. Please fix it for all the dropdown menu (See Screenshot 5)</p> <p>3. In all prescription report, add new button is not working. Prescription footer is showing old HAEFA address.</p>
11 Reports Section	
12 Analysis section	
13 Version Number	Would you please add Version Number and last updated date in the footer section?
	Backend is very slow for use. We have now small amount of test data in the database but it takes too long for view or generate any report. There will be huge patient data in near future that time it will be very tough to generate/view some report and using the backend properly.
14 Speed Issue	
15 Dashboard	Different type of charts is not properly implemented which we have provided earlier. (See the attachment-4)
16 Backend Sidebar Menu Icon	Menu icon should be related one.
17 File Upload List (Screenshot - 10)	
18 Charts	All the charts need to be developed as per attachment here.
	After insert RefEmployee, when we try to add him as a user, we can see there are Name, Employee Name. What does it mean by employee name? If we choose it, we can see in app frontend side, it is showing in the place of designation. (Screenshot – 12)
19 Employee	We have a RefDesignation Menu to insert designation. When we try to insert a RefEmployee, we can see we have to write it instead of select from RefDesignation to this field as a dropdown selection.
20 Designation	Naming Convention: Currently, Reports file name is not related to that reports when we download it. Need to fix all reports name with the related one. Ex. Patients reports is downloaded as Haefa - Report- Total 299, Male 202, Female 97, Branch Name Balukhali FDMN Camp Camp 9 (Attachment - 13)
21 Naming Convention	
22 User	As per requirements
23 Role	As per requirements
24 Station	As per requirements
25 Setting	As per requirements

Test Requirements Traceability Matrix (TRTM)											
Project Name	NIROG-Plus Electronic Medical Record System Application				Create Date		Version		Nirog Plus Version: 1.0.0

36	Backend	BR 5.7	Functionality testing	Change Request		TC_Reference_029	Check Duration functionality	PASS			PASS
37	Backend		Functionality testing	Change Request		TC_Reference_030	Check Drug Group functionality	PASS			PASS
38	Backend		Functionality testing	Change Request		TC_Reference_031	Check Designation functionality	PASS			PASS
39	Backend	BR 5.8	Functionality testing	Change Request		TC_Reference_032	Check Chief Complaints functionality	PASS			PASS
40	Backend		Functionality testing	Change Request		TC_Reference_033	Check Disease Group functionality	PASS			PASS
41	Backend		Functionality testing	Change Request		TC_Reference_034	Check Blood Group functionality	PASS			PASS
42	Backend	BR 7.0	Functionality testing	Change Request		TC_Reference_035	Check Upazilla functionality	PASS			PASS
43	Backend		Functionality testing	Change Request		TC_Reference_036	Check Health Center functionality	PASS			PASS
44	Backend		Functionality testing	Change Request		TC_Reference_037	Check Employee functionality	PASS			PASS
45	Backend	BR 7.0	Functionality testing	Change Request		TC_Reference_038	Check Union functionality	PASS			PASS
46	Backend		Functionality testing	Change Request		TC_Reference_039	Check Vaccine Child functionality	PASS			PASS
47	Backend		Functionality testing	Change Request		TC_Reference_040	Check Vaccine Adult functionality	PASS			PASS
48	Backend	BR 7.0	Can not add some reference data from backend	Change Request	System Config. Section	TC_SystemConfig_001	1. Auto Suggestion, 2. Auto Suggestion Group - NOT FOUND. We can not add some reference data from backend. Those are given below: 1. Advice, 2. Duration, 3. Frequency	PASS			PASS
49	Backend	BR 8.0	Add a button to sync data from other database	Change Request	Data Sync	TC_DataSync_001	Check the data sync button functionality	HOLD			To be discuss Phase 2.2
50	Backend	BR 9.0	Need a software for database backup	Change Request	Database Backup	TC_DatabaseBackup_001	Check database auto-backup	HOLD			To be discuss Phase 2.2
51	Backend	BR 10.0	Sometime barcode is broken	Change Request	Barcode	TC_Barcode_001	Check the barcode is broken or not	PASS			PASS
52	Backend	BR 10.1	Print just Health Center Name, District in header (remove Union and Upzilla)	New Requirement		TC_Barcode_002	Check barcode design and information	PASS			PASS
53	Backend		Table action column button is not working in barcode generator menu.	Change Request		TC_Barcode_003	Check action column button	HOLD		No need	PASS
54	Backend		Filtering to showing value 100, 50 is giving an error.	Change Request		TC_Barcode_004	Check the data table length functionality	PASS			PASS
55	Backend			Change Request		TC_ReportSection_001	Check "Age wise provisional Diagnosis" reports	PASS	DF_001		PASS
56	Backend			Change Request		TC_ReportSection_002	Check "Provisional Diagnosis Patient Count Age Wise" reports	PASS	DF_002		PASS
57	Backend			Change Request		TC_ReportSection_003	Check "Datewise Provisional DX" reports	PASS	DF_003		PASS
58	Backend			New Requirement		TC_ReportSection_004	Check "Blood Pressure" reports	PASS	DF_006		PASS

59	Backend			New Requirement		TC_ReportSection_005	Check "Chart of Diseases" reports	PASS	DF_005		PASS
60	Backend			New Requirement		TC_ReportSection_006	Check "Custom Report" section	PASS			PASS
61	Backend			New Requirement		TC_ReportSection_007	Check "All Disease" report	PASS	DF_011		PASS
62	Backend			New Requirement		TC_ReportSection_008	Check "Disease rate" reports	PASS	DF_007		PASS
63	Backend			New Requirement		TC_ReportSection_009	Check "Diabetes Mellitus" reports	PASS			PASS
64	Backend	BR 11.0	Report generate	Change Request		TC_ReportSection_010	Check "FollowUpDate" reports	PASS	DF_004		PASS
65	Backend			New Requirement		TC_ReportSection_011	Check "Full Data Export" report	PASS			In Progress
66	Backend			New Requirement		TC_ReportSection_012	Check "Full Data Dump" report	PASS			PASS
67	Backend			Change Request		TC_ReportSection_013	Check "Treatment Suggestions" reports	PASS	DF_009		PASS
68	Backend			New Requirement		TC_ReportSection_014	Check "All Prescriptions" report	PASS			PASS
69	Backend			New Requirement		TC_ReportSection_015	Check "Patients" report	HOLD		Not found	No need
70	Backend			New Requirement		TC_ReportSection_016	Check "Referred Case" report	HOLD		Not found	To be discuss Phase 2.2
71	Backend			New Requirement		TC_ReportSection_017	Check "Patient Count Age" report	PASS		Ascending and descending button missing but still working.	No need
72	Backend			New Requirement		TC_ReportSection_018	Check "District Wise Patient" report	HOLD		Not found	No need
73	Backend	BR 11.1	Every datatable first column name heading is not getting any space.	Change Request		TC_ReportSection_019	Check data table first column name	PASS			PASS
74	Backend	BR 11.2	All dropdown menu is not fixed in every filter input area dropdown. It is moving when we scroll down/up. Please fix it for all the dropdown menu	Change Request		TC_ReportSection_020	Check the dropdown functionality	PASS			PASS
75	Backend	BR 11.3	In all prescription report, add new button is not working	Change Request		TC_ReportSection_021	Check add new button	HOLD		No need	PASS
76	Backend	BR 11.4	Prescription footer is showing old HAEFA address.	Change Request		TC_ReportSection_022	Check prescription footer address	PASS			PASS
77	Backend	BR 12.0	Analysis report section	New Requirement	Analysis section	TC_AnalysisSection_001	Check every analysis report section	HOLD		Phase 2.2	To be discuss Phase 2.2
78	Backend	BR 13.0	Add Version Number and last updated date in the footer section	New Requirement	Version Number	TC_VersionNumber_001	Check the version number and updated date	PASS			PASS
79	Backend	BR 14.0				TC_SpeedIssue_001	Site load test	HOLD		Server issue (Not suitable for performance testing)	No comments
80	Backend	BR 14.1	Backend is very slow	Change Request	Speed Issue	TC_SpeedIssue_002	Report generate speed test	HOLD		Server issue (Not suitable for performance testing)	No comments
81	Backend	BR 15.0				TC_Dashboard_001	Check the chart from dashboard	PASS			PASS
82	Backend	BR 15.1	0	New Requirement	Dashboard	TC_Dashboard_002	Check the graph from dashboard	PASS		Not found any graph	PASS
83	Backend	BR 16.0	Menu icon should be related one.	Change Request	Backend Side Menu	TC_BackendSideMenu_001	Check the side menu UI/UX	FAILED		Not responsive	Admin Panel only Support Laptop and Desktop Screen
84	Backend	BR 17.0	File Upload List	New Requirement	File Upload List	TC_FileUpload_001	Check the file upload function	PASS		Need to mention file size and file format.	Not Clear
85	Backend	BR 18.0	All the charts need to be developed as per attachment here.	New Requirement	Charts	TC_Charts_001	Check the charts on dashboard	PASS			PASS
86	Backend					TC_Employee_001	Check the employee add section	PASS			PASS
87	Backend	BR 19.0	What does it mean by employee name	Change Request	Employee	TC_Employee_002	Check the user section for employee	PASS			PASS
88	Backend	BR 20.0	Designation dropdown under the employee section	Change Request	Designation	TC_Designation_001	Check to create a new designation	PASS			PASS
89	Backend			Change Request		TC_Designation_002	Check designation dropdown under the employee field	PASS			PASS
90	Backend	BR 21.0	Report download file name	Change Request	Naming Convention	TC_NamingConvention_001	Check report download file name	PASS			PASS
